Expertise	:	HTML, CSS, Bootstrap, Tailwind, ES6, React, Firebase
Comfortable	:	JavaScript, MongoDB, ExpressJS, JWT
Familiar	:	NodeJS, Stripe
Tools	:	VS Code, Git, Figma, Netlify, Vercel

PROJECTS

Sport Learn

[Live Link](#) | [GitHub](#) > [Client](#) | [Server](#)

- Sport Learn is a full-stack MERN website for sports academies.
- Includes registration and login system, instructor dashboard, student dashboard and admin dashboard.
- Website uses token-based authentication, Stripe, react-query, Axios and has dark/light theme toggle.

Technologies: React(Vite), React-router-dom, MongoDB, ExpressJS, NodeJS, JWT, Stripe, Firebase, React sweetalert2, Tailwind CSS, React Font, Vercel, Tanstack query, Axios.

Barisal Bistro

[Live Link](#) | [GitHub](#) > [Client](#) | [Server](#)

- Barisal Bistro - Chef Recipe Hunter Website
- Implemented user authentication and registration functionality using Firebase.
- private routing on the client side, allowing access to the chef's detailed information.
- Implemented a redirect mechanism, sending users to the login page if they attempt to access the chef details page without logging in.

Technologies: React-router-dom, React(Vite), ExpressJS, Vercel, Firebase, React-lazy-load, React toastify, Tailwind CSS, React Font, NodeJS.

Toy Trek

[Live Link](#) | [GitHub](#) > [Client](#) | [Server](#)

- ToyTrek is a full-stack Toy cars Marketplace website
- Users can add, update, and delete their own toys.
- The shop by category section includes tabs with sub-categories of toys for easy navigation.
- Single toy details page is a private route. Non-logged in users prompted to log in and redirected to login page when clicking on view details button

Technologies: React-router-dom, MongoDB, ExpressJS, Vercel, Firebase, React AOS, React Swiper, Tailwind CSS, React Font, NodeJS.
